

## 九十五學年度口腔病理學實驗課程進度明細表

第一週 228 放假

第二週

<b>3/7 Non-odontogenic tumors (1)</b>	
<u>001</u> Hyperparakeratosis, acanthosis	<u>002</u> Submucous fibrosis
<u>003</u> Submucous fibrosis with VH	<u>004</u> Verrucous hyperplasia
<u>005</u> Papilloma	

第三週

<b>3/14 Non-odontogenic tumors (2)</b>	
<u>006</u> Carcinoma in situ	<u>007</u> Squamous cell carcinoma (P-D)
<u>008</u> Squamous cell carcinoma (W-D)	<u>009</u> Squamous cell carcinoma (M to P-D)
<u>010</u> Metastatic SCC, lymph node	<u>011</u> Fibrolipoma
<u>012</u> Fibroma	<u>013</u> Fibromyxoma

第四週

<b>3/21 Non-odontogenic tumors (3)</b>	
<u>014</u> Granular cell tumor	<u>015</u> Hemangioma, capillary
<u>016</u> Hemangioma, cavernous	<u>017</u> Pregnancy tumor
<u>018</u> Congenital epulis	<u>019</u> Giant cell granuloma, peripheral
<u>020</u> Lymphangioma	

第五週

<b>3/28 Non-odontogenic tumors (4)</b>	
<u>021</u> Neurilemmoma	<u>022</u> Neurofibroma
<u>023</u> Rhabdomyoma	<u>024</u> Verruciform xanthoma
<u>025</u> Nevus, intra-mucosal	<u>026</u> Nevus, compound
<u>027</u> Non-Hodgkin's lymphoma	<u>028</u> Plasmacytoma

第六週

<b>4/4 Developmental disturbance of oral structure</b>	
<b>Odontogenic tumors (1)</b>	
<u>029</u> Fordyce granules	<u>030</u> Lingual tonsil
<u>031</u> Ameloblastoma, follicular	<u>032</u> Ameloblastoma, plexiform
<u>033</u> Ameloblastoma, acanthomatous	

第七週

<b>4/11 Odontogenic tumors (2)</b>	
<u>034</u> Ameloblastoma, desmoplastic	<u>035</u> Ameloblastoma, desmoplastic
<u>036</u> Ameloblastoma, granular cell	<u>037</u> Unicystic ameloblastoma
<u>038</u> Adenomatoid odontogenic tumor	<u>039</u> Ameloblastic fibroma

第八週

<b>4/18 Odontogenic tumors (3) Odontogenic tumors (4)</b>	
<u>040</u> Ameloblastic fibro-odontoma	<u>041</u> Odontoma, complex and compound
<u>042</u> Cemento-ossifying fibroma	<u>043</u> Cemento-ossifying fibroma
<u>044</u> Benign cementoblastoma	<u>045</u> Odontogenic fibroma, peripheral
<u>046</u> Odontogenic myxoma	

第九週—學校期中考週

第十週—5/05 口病實驗期中考

第十一週

<b>5/9 Disease of pulp and periapical tissues, Bacterial and mycotic infection (1)</b>	
<u>047</u> Pulp polyp	<u>048</u> Chronic osteomyelitis
<u>049</u> Sequestrum	<u>050</u> Pyogenic granuloma
<u>051</u> Pyogenic granuloma	

第十二週

<b>5/16 Disease of pulp and periapical tissues, Bacterial and mycotic infection (2)</b>	
<u>052</u> Tuberculosis, lymphadenitis	<u>053</u> Tuberculosis, palate
<u>054</u> Tuberculosis (caseous necrosis), lymphadenitis	<u>055</u> Actinomycosis, lower lip
<u>056</u> Candidiasis, PAS	

第十三週

<b>5/23 Cyst of head and neck (1)</b>	
<u>057</u> Radicular cyst	<u>058</u> Radicular cyst
<u>059</u> Radicular cyst with hyaline body	<u>060</u> Odontogenic keratocyst
<u>061</u> Odontogenic keratocyst	<u>062</u> Gorlin cyst
<u>063</u> Gorlin cyst	

第十四週

<b>5/30 Cyst of head and neck (2)</b>	
<u>064</u> SCC ex dentigerous cyst	<u>065</u> Nasolabial cyst
<u>066</u> Branchial cleft cyst	<u>067</u> Lymphoepithelial cyst
<u>068</u> Thyroglossal duct cyst	<u>069</u> Dermoid cyst
<u>070</u> Epidermoid cyst	

第十五週

<b>6/06 Bone disease Physical and chemical injuries</b>	
<u>071</u> Fibrous dysplasia	<u>072</u> Giant cell granuloma, central
<u>073</u> Chondrosarcoma	<u>074</u> Osteogenic sarcoma
<u>075</u> Chronic ulcer and mucocele, lower lip	<u>076</u> Chronic ulcer
<u>077</u> Epulis fissuratum, IFH	

第十六週

<b>6/13 Disease of salivary gland (1)</b>	
<u>078</u> Pleomorphic adenoma	<u>079</u> Pleomorphic adenoma
<u>080</u> Oncocytoma	<u>081</u> Warthin's tumor
<u>082</u> Mucoepidermoid carcinoma	<u>083</u> Mucoepidermoid carcinoma

第十七週

<b>6/20 Disease of salivary gland (2) Skin disease</b>	
<u>084</u> Adenoid cystic carcinoma, cribriform	<u>085</u> Adenoid cystic carcinoma, cribriform
<u>086</u> Adenoid cystic carcinoma, solid type	<u>087</u> Mucocele
<u>088</u> Mikulicz disease	<u>089</u> Chronic sialadenitis
<u>090</u> Acinic cell adenocarcinoma	<u>091</u> Lichen planus
<u>092</u> Pemphigus	

第十八週—期末考(日期另擇)
