

Case Journal TAOMFR – Review Sheet

Manuscript ID: Cases Journal TAOMFR-2011-03 entitled " Primary Melanoma of the Maxillary Gingiva and Palate: Report of a Case " written by *Shu-Ching Huang, Shui-Sang Hsue, Buor-Chang Wu.*

Comments to the Author

The authors of this submitted manuscript report an interesting case of oral malignant melanoma with detailed imaging examinations including routine oral radiography, CT, PET, and whole body scan. This case will be valuable to our readers of the society. However, some points need further modifications, listed as below:

1. The authors should report the data of treatment, if any.
2. The format of references should be complied with the requirement of the journal (Please consult the author instruction or other published papers of Cases Journal TAOMFR).
