

Case Journal TAOMFR – Review Sheet

Manuscript ID: Cases Journal TAOMFR-2012-1 entitled "Osteoblastoma (aggressive form) in the mandible " written by *Jing-Yi Chen et al.*

Comments to the Author

The authors of this submitted manuscript report an interesting case of aggressive osteoblastoma occurring in the mandible with clinical, radiographic and histological examinations. This case will be interested to our readers of the society and add knowledge to our understanding of this disease entity. However, some points need further modifications, listed as below:

1. The authors should present the medical history and oral risk factors of the patient, if any.
