Dear Taiwan Academy of Oral & Maxillo-Facial Radiology (TAOMFR) members:

As the year of 2009 ends and we begin our 2<sup>nd</sup> year of publication, we would like to thank each of you for your support in what has been the first year for *Cases Journal TAOMFR*. Indeed, there is only duration of two months for the first year of our *Journal* and we have published two interesting and educational manuscripts. Hoping in the coming 2010 year, we will have been bringing to the attractive publication more manuscripts which are advancing our knowledge on oral and maxillofacial radiology in Taiwan. This objective will only be succeeded through the efforts of our members of TAOMFR. We encourage our members themselves as well as to persuade your colleagues to submit a manuscript to *Cases Journal TAOMFR*. Thanks in advance.

On the other hand, we are delighted to express our sincere gratitude to the reviewers who have unselfishly given their time and intellect to carefully read, understand and analyze the two submissions of this year, writing critiques that not only serve to evaluate the work but also to develop the insights and education of the authors.

Finally, we would raise your concern for the flexibility and innovative know-how enables the *Cases Journal TAOMFR* availability on the web, fostering rapid dissemination of information worldwide in connection with appropriate publications.

With a sense of great appreciation, and with all best wishes to you and your families for a healthy, productive and satisfying New Year,

With best regards

*Cases Journal TAOMFR*
